Profile

I am a Surface Designer & Digital Modeler specialising in the automotive industry. With a strong foundation in Class A surface modeling, concept development, and hybrid modeling, I combine aesthetic creativity with technical precision. Proficient in both NURBS-based software like Autodesk Alias and polygon modeling both in Alias Sub-D & Blender, I leverage the strengths of both modeling techniques to deliver innovative digital solutions for leading automotive manufacturers. My passion for 3D design, continuous learning, and dedication to technological advancements drive my ambition to play a pivotal role in product development and technical design.

Education

YRGO

Design Teknik, Surface Designer.

Gothenburg, Sweden

Aug 22 - June 2024

- Specialised in Autodesk Alias & Sub-D, Blender, Icem Surf, Catia v5, Autodesk Vred, Adobe Photoshop.
- Awards and honours: Adlerbertska stipendium for demonstrated significant development.

Chalmers University of Technology

Engineering preparatory year.

Gothenburg, Sweden

Aug 2020 - June 2021

- Completed foundational coursework in mathematics, physics, chemistry.
- Participated in a project course in MATLAB with a focus on image processing.

Partille Gymnasium/ High School

NIU Team Handball, Natural science program focuses on society.

Partille/ Gothenburg, Sweden

Aug 2015 - May 2018

- National Elite Sports Education.

Experience

Kia Europe

Digital Modeler- Alias Trainee

Frankfurt am Main, Germany

Sep 2024 - Present

- Through - Technicon Design
- Collaborate closely with leading designers and engineers to develop captivating exterior and interior components for future vehicle models.
- Leverage proficiency in both NURBS and subdivision modeling techniques.
- Optimize workload distribution by assisting with CAS-data assemblies, ensuring efficient and timely project milestone delivery.
- Enhanced design presentations by creating and optimizing 3D models for use in VRED-based virtual reality showcases, as well build specific 3D model assets to be used for design presentations animation in Blender and Unreal Engine.

Technicon Design Deutschland GmbH

Digital Modeler

Frankfurt am Main, Germany

Sep 2024 - Present

- Relocate to Frankfurt, Germany to work onsite at KIA Design Europe.
- Cultivated strong client relationships through proactive communication.

Geely Design Center

Digital Modeler Intern

Gothenburg, Sweden

Nov 2023 - May 2024

- Gained good knowledge about Digital modeling theories.
Been supervised by Design quality specialists that have taught me the right way of building correctly. Been part in different exercises and sharp assignments.
- Concept facelift for Lynk & Co 02 using NURBS Alias. (exterior)
- Concept front and rear facelift of Zeekr 001 FR in poly using Blender. (exterior)
- Poly modelling a car seat from Lynk & Co 08 using Blender. (interior)
- Poly modelling full interior of Lynk & Co Next Day using Blender. (interior)

Bohus Städ

Coffee Technician

Gothenburg, Sweden

Aug 2021 - Aug 2022

- Engaged in a service-based role involving problem-solving and mechanics.

Facility Maintenance

Okt 2019 - Aug 2021

- Managed facility services, including assembly assistance, mail delivery, moving, and facility maintenance.

Projects**Volvo AI**

University collaboration project

Gothenburg, Sweden

Aug 2023 - Nov2023

- Collaborated with Volvo Car Design #WeDesignVolvo.
- Aimed to create cars using AI-generated input sketches.

Leadership and Activities**Elit Team Handball Player**

Lerum/ Partille/ Gothenburg, Sweden

Positions V9, M6.

2015-Aug 2023

- Relocated from Visby, Gotland to Gothenburg for high school, pursuing a national elite Sports education in handball.
- Division winner with Rosendal IK (RIK-B team) 2016-2017.
- Top 7 in Sweden U18 with Redbergslid IK, 2018.
- Played handball at an elite level for teams such as Redbergslid IK, HP Warta & IK Baltichov.

Skills & Interests**Technical:** Autodesk Alias & Sub-D, Blender, Icem Surf, Catia v5, Autodesk Vred, Adobe Photoshop.**Skills:** Class A surface modeling & Concept modeling, Hybrid modeling, Technical part & Generative shape design, Visualisation.**Language:** Swedish (Native), English (Fluent).**Interests:** Training, Running, Sport, Reading.**Other:** Driving Licence B.
